

2026 TRAINING LIST

No#	Training Description	Duration	Cost (ZAR)	Training Objectives & Outcomes
1	Computer Literacy	5 days	ZAR 4 500,00	Build foundational computer literacy skills including Windows, file management, and typing. Provide proficiency in core MS Office apps for professional communication.
2	Global 8D Problem Solving & Root Cause Analysis	2 days	ZAR 3 000,00	Develop practical problem-solving capability using the Global 8D methodology through real-world manufacturing problems. Training delivered by experienced Quality professionals with hands-on insight from
3	Incoming Quality Control	3 days	ZAR 3 300,00	Learn practical Incoming Quality Control methods including inspection planning, use of measurement tools, defect identification, and application of internationally recognized sampling inspection standards (ISO 2859) for effective supplier and incoming material verification.
4	Interpersonal Skills	5 days	ZAR 2 500,00	Equips participants with essential interpersonal skills to build effective workplace relationships, improve communication, and foster collaboration. It is designed to enhance self-awareness, emotional intelligence, and conflict management capabilities, enabling participants to thrive in team-oriented and professional
5	ISO 14001:2015 Awareness	1 day	ZAR 1 000,00	Create environmental awareness based on ISO 14001 requirements.
6	ISO 14001:2015 Internal Auditor	2 days	ZAR 2 500,00	Train staff on conducting ISO 14001 internal audits and reporting findings.
7	ISO 14001:2015 Lead Internal Auditor	5 days	ZAR 6 800,00	Develop lead auditor competencies in planning, executing, and closing ISO 14001 audits.
8	ISO 45001:2018 Awareness	1 day	ZAR 1 000,00	Raise awareness of occupational health and safety principles under ISO 45001.
9	ISO 45001:2018 Internal Auditor	2 days	ZAR 2 500,00	Train internal auditors on OHS audit practices and standards.
10	ISO 45001:2018 Lead Internal Auditor	5 days	ZAR 6 800,00	Qualify participants to lead and manage OHS audits under ISO 45001.
11	ISO 9001:2015 Awareness	1 day	ZAR 1 000,00	Promote understanding of ISO 9001 quality management principles.
12	ISO 9001:2015 Internal Auditor	2 days	ZAR 2 500,00	Provide skills to conduct internal audits in line with ISO 9001:2015.
13	ISO 9001:2015 Lead Internal Auditor	5 days	ZAR 6 800,00	Prepare participants to lead audits and ensure ISO 9001 compliance.
14	Lean Principles & 5S	2 days	ZAR 2 200,00	Learn practical Lean principles focused on waste reduction, improved process flow, and continuous improvement. The course also covers the 5S methodology to enhance workplace organization, visual management, and operational efficiency.
15	MS Excel Training (Advanced)	3 days	ZAR 3 500,00	Advance Excel use with macros, data analysis, and automation tools.
16	MS Excel Training (Basic)	5 days	ZAR 3 500,00	Introduce Excel basics including data entry, formatting, and formulas.
17	MS Excel Training (Intermediate)	3 days	ZAR 3 000,00	Develop intermediate Excel functions like VLOOKUP, pivot tables, and charts.
18	Non-Conformance Handling	2 days	ZAR 3 400,00	Develop the skills to identify, document, and manage non-conformances effectively, emphasizing the importance of segregation to prevent mixing good products with defective ones. Training covers proper reporting, containment actions, root cause analysis, and corrective action implementation to ensure quality and prevent recurrence.

2026 TRAINING LIST

No#	Training Description	Duration	Cost (ZAR)	Training Objectives & Outcomes
19	Production & Quality Control	5 days	ZAR 5 500,00	Comprehensive training combining essential production principles with quality control techniques to ensure efficient process management. Covers inspection methods, non-conformance handling, defect prevention, and strategies to maintain product integrity throughout production.
20	Production Operator	3 days	ZAR 2 500,00	Equip participants with practical skills for production line work in manufacturing and basic safety.
21	Quality Controller	5 days	ZAR 5 000,00	Train quality controllers in inspection, measurement, and defect reporting.
22	Quality Systems	3 days	ZAR 3 500,00	Understand structure and implementation of Quality Management Systems.
23	Quality Techniques	5 days	ZAR 5 800,00	Introduce techniques for quality planning, control, and improvement.
24	Statistical Process Control	3 days	ZAR 2 800,00	Apply statistical tools such as control charts for process monitoring.
25	Supervisory & Leadership	5 days	ZAR 5 000,00	Build leadership, delegation, and communication skills for team leads.
26	Technical Operator	5 days	ZAR 5 000,00	Prepare operators with technical skills, machine use, and troubleshooting.
27	Total Quality Management (TQM) Essentials	10 days	ZAR 10 000,00	Implement TQM principles to drive continuous quality improvement.
